Volume 46 Issue 1

T h e F i s h e r m a n ' s L i n e

**January Meeting, Tuesday January 30, 2018
7:30pm @ Harper Jr. High School
Bob Laskodi Presents:
“ The California Heritage Trout Program”**

*T*his month, Tuesday November 30th at Harper Junior High School, the Fly Fishers of Davis will hear from Bob Laskodi who will give a presentation on “California’s Heritage Trout”. The program will discuss the wild and native trout found within the state and will focus on the history and genetic importance of these native trout and discuss the locations, methods, and techniques used to catch them. Be advised in advance that this program contains some outstanding fish and beautiful scenery photos, that will leave you drooling and ready to go to fishing!

Bob is a California “native”, fishing the various waters of the expansive state since the 1970’s. He has fished everything from small delicate creeks, to large rivers, to wilderness backcountry lakes and streams, to the ocean and Delta waters, and loves every minute he can spend in the beautiful state. Bob has been fly fishing since the 1970’s and after retiring from a “real job”, owned and operated a retail fly fishing store, Fly

Anglers Unlimited in Pleasanton, California. Currently, Bob is active in his local fly club, San Jose Flycasters, and has previously served on the Board of Directors, including a term as President.

THE PREZ SEZ

By Tom Robinson

Grateful For the Opportunity

I'm not sure where the time goes... Some say time is moving faster; I think I am just getting older. Welcome to 2018! I thought I would take this month's column to introduce myself to you, the Fly Fishers of Davis Membership, as your new Club President.

My Name is Tom Robinson. I'm a native Californian born and raised in Southern California. I grew up gear fishing at Lake Poway, where every summer I would spend day after day with my trusty Zebco rod and a tub of night crawlers.... I loved it! In the early 80s Lake Hodges Dam overflowed and I suddenly had a world class bass fishery within walking distance of my house. That is when I honed my skills as a largemouth bass fisher. I loved the challenge and could fish all day long. Around that time I was given my great grandfather's split bamboo fly rod... without a mentor I never really took to fly fishing, mainly just casting the rod in the backyard and catching blue belly lizards... long story! The style of fishing always intrigued me.

I met Kim Petersen ,the love of my life of more than 30+ years as a freshman at the Univ. CA San Diego. Graduated, married, we ended up in the US Peace Corps in the Kingdom of Tonga. We returned to the states and moved to Northern CA where I got my first job at UC Davis doing tick-borne research and later in Information Technology. We have two kids, Joshua 24 and Kayla 22. There wasn't a lot of fishing back then with weekends full of sports. I coached AYSO soccer and Girls Fast Pitch Softball for 12+ years. One of my biggest regrets is not passing on the fishing bug to them... but there is still time.

Once the kids went off to college, Kim and I looked for new hobbies. That's when I was introduced to the FFD Club six years ago. Okay... Okay... my wife joined first... and all she could talk about was this guy named Dana Hooper that taught this great 101 class and couldn't stop talking about catching fish! What started out as a quest for a new hobby has changed my life forever. I love the camaraderie of the Club, the rich history of it's Membership and their stories. The opportunities to get involved with local causes and make a difference. Meeting new people and sharing my love of fishing and the experiences I've had. I've met four of the closest friends and mentors I have ever had through the Club... they are like brothers to me and for that I am so lucky! Here's to you WP! And I am catching (and releasing) more fish than I ever had and having the time of my life doing it.

So it is my great honor to give back to the Club which has given so much to me. I am truly grateful to be your Club President.

A handwritten signature in blue ink that reads "Tom Robinson".

Tom Robinson

MEETING SCHEDULE

The meeting schedule has been tentatively set for the next few months. Dana Hooper is the program chair - let him know if you like the program speakers or if you have ideas for one.

Fly Fishers of Davis 2017 Meeting Schedule			
MONTH	SPEAKER	DATE	TOPIC
January	Bob Laskodi	January 30, 2018	California Heritage Trout Challenge
February	Patrick Samuel	February 27, 2018	SOS Status of CA Salmon Report
March	Ken Hanley	March 28, 2018	Fly Fishing Bass

*Except where noted, all meetings will take place at Harper Jr. High School

2018 FFD FISHCAMP SCHOLARSHIP

DEADLINE IS JANUARY 31, 2018

The Fly Fishers of Davis (FFD) are offering a Fish Camp Scholarship to any interested boy or girl, from 10 to 15 years of age. This \$795 award covers the entire cost of the five day program (June 18 – June 22, 2018) , which is outfitted by The Fly Shop of Redding. The FFD Board has approved to include members of Davis Boy Scout and Girl Scout Troops, and children that participated in the Salmon in the Classroom Program as eligible applicants, in addition to relatives of Fly Fishers of Davis members. Go to <http://www.flyfishersofdavis.org/scholarship/fishcamp.html> the online application and additional ways to apply.

Fly Fishers of Davis is now on Facebook! Like Us and Follow Us to get the Latest updates on Club Events and other News.

Absolutely, Totally, The Very Last Call for Photos and Video!

By Paul Berliner

No more excuses, campers! You've had months n' months, so ... if you'd like to see your photos and videos in the "2017 In Review" video at our Annual Dinner, the deadline is the **General Meeting – Tuesday, 1/30**.

Important:

- **Option 1:** If you only have a few shots, and the file size is small, please email them to me (paul@berlinerproductions.com).
- **Option 2:** If the file size is too large to email, contact me by email or phone (530) 753-3886. I can arrange to get the files from you, either on a flash drive, on a CD, or on a DVD.
- **Option 3:** Bring a flash drive to the General Meeting.
- **Option 4:** Stop by my edit suite in February with your prize shots, and marvel at all the pictures on the cutting room floor (including yours)!

Please include your name, and the location at which the photos were shot.

Many thanks!

Paul

2018 FFD ANNUAL DINNER

Saturday, March 10th, 2017 West Plainfield Fire Station at 5:30 PM

Plans for the 2018 Fly Fishers of Davis Annual Dinner are well under way. It's time to mark your calendar and save the date so that you can attend this great event. **Skip the line and pre-purchase dinner and raffle tickets at the upcoming FFD Monthly Meeting.**

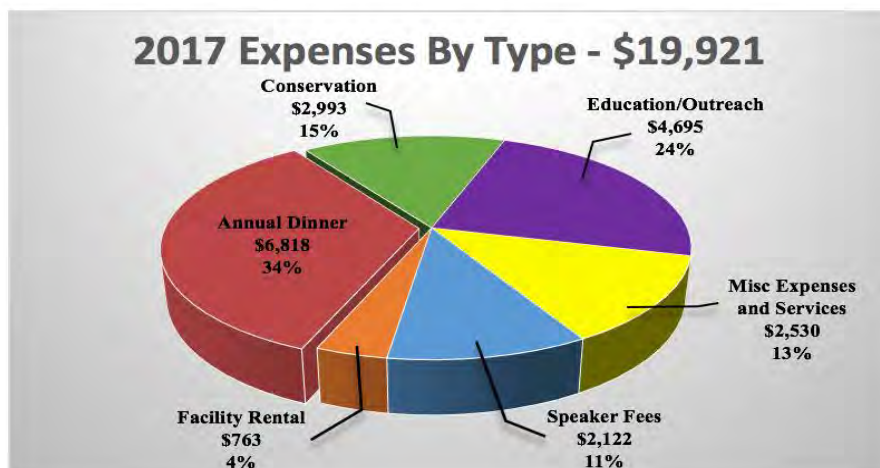

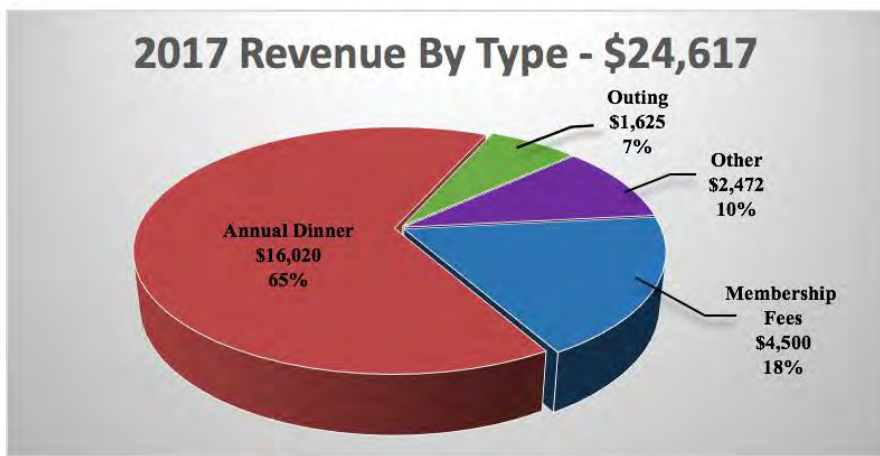

Dana Hooper is lining up some great raffle items and HIGH ROLLER prizes. Paul Berliner is busy putting together the much enjoyed 2017 FFD Year in Review, and once again we've lined up pitmaster Hickory Hank to prepare our guests a fantastic meal. **We will be asking for RSVP's soon that that we tell Ol' Hickory how much food he needs to prepare.** Hope to see you there!

2017 CALL FOR DUES!

Here is a reminder to send in your dues for 2018. Dues for adults and families are \$30/year, and the student rate is \$15/year. Because of your support, our membership continues to grow! Your dues help to fund almost all club activities — including our superb array of guest speakers, outings, the annual picnic, fly casting and fly tying clinics, our amazing FFD 101 classes, Salmon in the Classroom, and best of all, our contributions to numerous outreach, education and conservation organizations. Please bring a check (made out to Fly Fishers of Davis) or cash to the next club meeting. You can present this to Lyn Hooper at the membership table. As an alternative, you can mail your check to Fly Fishers of Davis, P.O. Box 525, Davis, CA 95617. Thank you for your generosity and continuing support!

TREASURER’S REPORT 2017

The club financial operations for 2017 are shown in the accompanying pie charts. The Board has budgeted conservatively over the last several years and the checking account balance has grown as a result. The Board decided early in the year to reduce the account balance by increasing support of worthy conservation, and education causes. This year due to a new incoming Treasurer and some accounting changes we have a bit of a surplus for the year at the moment, therefore the checking account balance currently stands at \$30,997. Once again the Club’s primary income was from the annual dinner, which accounted for 65% of the funds received – Thank you ALL for supporting our main fundraiser of the year and for the volunteers that make it happen! Membership dues are next, followed by Other which includes various Club Meeting raffles, and Outings . The largest expense item of the year is also the Annual Dinner. Education/outreach and Conservation accounts for 39% of expenditures, followed by Miscellaneous Expenses and Services, Speaker Fees and the other items listed. If you have any questions about club income or expenses, please contact the Treasurer or any other Board Member.

WOMEN IN FLY FISHING

MAY 4-6
- 2018 -

FFD 101 & 201 Classes

By Dana Hooper

Class Dates for 2018

Class Times are 7 pm – 9 pm

UCD Horticulture Room

If you can't Identify these Bugs then maybe you need to sign up for these classes.

Day 1	Wed. Feb 21	Equipment and Supplies
Day 2	Wed. Feb 28	Bugs -VS- Flies
Day 3	Wed. March 7	Rigging and Techniques A
Day 4	Wed. March 14	Reading Water and Locating Fish
Day 5	Wed. March 21	Indicator Techniques and Review

If you would like to learn how to catch fish like these.

201 Topics

Day 1	Wed. March 28	Delta Striper Techniques
Day 2	Wed. April 4	Streamer Techniques for Trout
Day 3	Wed. April 11	Stillwater Techniques

Please Sign up at the next meeting or email Dana Hooper at TroutHookup1@gmail.com or 916-343-9732

CONSERVATION REPORT

By Lowell Ashbaugh

Conservation Mailing List Want to keep up on conservation issues in between newsletters? Join the FFD Conservation email list at <http://www2.dcn.org/mailman/listinfo/ffd-conservation>.

The Bureau of Reclamation has announced it will conduct an environmental analysis of potential modifications to the operation of the Central Valley Project, in coordination with California's State Water Project, to maximize water deliveries and optimize marketable power generation.

The CVP is a major water source for agricultural, municipal and industrial, and fish and wildlife demands in California. State and federal regulatory actions and other agreements have significantly reduced the water available for delivery south of the Sacramento-San Joaquin River Delta. This project will evaluate alternatives to restore water supply in consideration of all of the authorized purposes of the CVP.

A Notice of Intent to prepare an environmental impact statement in accordance with the National Environmental Policy Act, "Revisions to the Coordinated Long-term Operation of the Central Valley Project and State Water Project, and Related Facilities" was published in the Federal Register, Friday, Dec. 29, 2017 and can be accessed at

<https://www.federalregister.gov/documents/current/#reclamation-bureau>. Reclamation is the lead federal agency and will request other agencies to participate as cooperating agencies. Reclamation is seeking comments by Feb. 1, 2018, that will be used to develop alternatives to the proposed action. Public scoping meetings will be scheduled for mid-January.

Written comments are due by close of business, Feb. 1, 2018, by U.S. mail or hand-delivery to Katrina Harrison, project manager, Bureau of Reclamation, Bay-Delta Office, 801 I Street, Suite 140, Sacramento, CA 95814-2536; fax 916-414-2439; or email kharrison@usbr.gov. For additional information, please contact Harrison at 916-414-2425 (TTY 800-877-8339).

Allegations of misbehavior on the Twin Tunnels On January 17 the California State Water Board announced that it would take two weeks to investigate allegations of illegal meetings and unlawful ex parte communications between the Department of Water Resources (DWR) and the State Board's CA WaterFix (Delta Tunnels) hearing team, thereby postponing the first tunnels hearing of 2018 to February 2.

Protestants San Joaquin County, Sacramento County, City of Stockton, City of Antioch, and Local Agencies of the North Delta jointly prepared and filed a motion

asking the State Water Board to stay the WaterFix Hearing for 90 days, requesting they review ex parte communications between DWR and the State Board's WaterFix hearing team on Tuesday January 16, 2018.

Ex parte communications in this context are communications between members of the Hearing Team and advocates for one side, without the knowledge of the other side. An analogy would be a substantive discussion between a judge and plaintiff's counsel in a civil lawsuit concerning the lawsuit itself, without the defendants and their counsel ever being informed that such a discussion took place. The unlawful ex parte communications in this case are substantive and concern issues at the heart of the ongoing evidentiary proceeding. These ex parte communications violate Constitutional due process requirements, California law, rules of the Board itself, and other ethical guidelines that apply in such proceedings.

These ex parte communications irrevocably taint the WaterFix Hearing. The requested stay is necessary to allow further investigation into the extent of the ex parte communications and to determine how best to address the ethical misconduct that has occurred.

As background, the most critical approval needed for Governor Brown's twin Delta tunnel legacy project is that of the State Water Resources Control Board. The approval process was initiated by the California Department of Water Resources (DWR) and U.S. Bureau of Reclamation in August 2015, by their filing of a Petition for Change. The State Board's approval of that Petition is essential for construction of the proposed project. The WaterFix Hearing is an evidentiary hearing. Twin tunnel proponents and those opposing the twin tunnels, called "protestants," present testimony and other evidence to support their positions before the State Board. The State Board's WaterFix Hearing Officers are the decision-makers who must hear the evidence from all sides and eventually decide the fate of the Petition for Change. They sit as the judges in the WaterFix Hearing. They and the other State Board personnel assisting them in this matter comprise the WaterFix Hearing Team.

California State Parks recently announced the completion of the removal of the Benbow Dam, which is the second largest concrete structure to be removed in California.

The removal of the dam, built in 1931 on the Eel River, will help the migration of salmon and restore the habitat for other species.

“The removal of Benbow Dam moves us closer to reversing the alarming decline of West Coast fall-run Chinook, Coho salmon and summer-run steelhead by restoring access to an additional 96 miles of prime habitat along the Eel River,” said Pat Montanio, director of the office of habitat conservation in NOAA Fisheries.

“This project benefits surrounding communities by removing a public safety hazard for boaters and park visitors.”

The Benbow Dam removal project began in 2010 with planning and engineering and a grant from American Rivers. State Parks later received a grant from NOAA Restoration Center to begin work following a multi-agency environmental review.

The demolition work began in 2016. Earlier than expected, high flows that year from winter storms and the

potential to affect salmonid migration halted the project in mid-October 2016. Work began again in August 2017 and was completed in October.

“The removal of Benbow Dam has significant positive impacts for riparian natural resources and added safety for recreational users of the Eel River, while eliminating costly repairs and maintenance,” said Victor Bjelajac, superintendent of the California State Parks North Coast Redwoods district.

“Many thanks to staff and management from the California Department of Parks and Recreation, participating agencies and the public for making the project a success.”

Future phases of the project are planned to help restore and rehabilitate riverine habitat.

Planting will take place over the winter with additional monitoring of the vegetation and river response to follow over the next few years.

INTERNATIONAL FLY FISHING FILM FESTIVAL 2018

Thursday, February 1 2018 • Tower Theater - Sacramento

Doors open 6:45 PM • Film Starts 7:00 PM

CalTrout is hosting a screening of the International Fly Fishing Film Festival. A \$5 discount on the ticket price to Fly Fishers of Davis members. For event info and to buy tickets visit <http://www.showclix.com/event/if42018sacramentoca> Use the discount code FLYCLUB2018 during online ticket purchasing.

FFD OUTINGS: WINTER TRINITY RIVER

Summaries by Dan Kathan and Kyle Kordona • Photos by Members

On the week leading up to FFD's annual winter steelhead outing, the Trinity County area enjoyed a much needed shot of rain. Optimism ran high as the river turned slightly off color and CFS levels were on the rise. Fresh fish entering the system were reported by many. The group of anxious participants consisted of Beverly Beckman and Mike McDonald; Kris Kordona and his son, Kyle; Rich Sakai; John Taylor, Roger Hull; and myself.

On day one, the upper runs (Rush Creek to Steele Bridge) produced for Bev and Mike who were fishing the Trinity for the first time. While the wild adult eluded them, both hooked and landed a handful of feisty half-pounders. The second boat of John Taylor and Roger Hull covered much of the same water and also experienced positive results. However, on that day, the hot rod of the boat (for that fact, the trip) was held by Roger. While John was tested by a few half-pounders, Roger hooked and landed two (2) adult steelies, one of which was a wild chrome bullet. Both fish were estimated to be in the five (5) pound class.

Rich and I fished Lorenzo Gulch to Sky Ranch run on the middle stretch of the system. Rich enjoyed some success landing a half-pounder and hooking, though not landing, a spirited adult. On the other hand, I enjoyed a very relaxing scenic float with no disturbances the entire day.

Saturday night our group gathered for dinner at the ever popular Weaverville Country Club. While rumors that Judge Elihu Smails was in the rooms, he was nowhere to be found. Food and service were good but the company was great.

Day two was, to say the least, a challenge. The positive effects of the week's earlier rain had long since disappeared. Flows were now in the mid 300's with gin clear water clarity. Despite the success experienced on the upper river, a decision was made to explore the "canyon" run of Sky Ranch to Pidgeon Point. The float was scenically beautiful but produced little with the exception of Rich's hook-up at the take out. Unfortunately, it was not brought to the boat.

Certainly not the most productive trip from a "fish" perspective but otherwise it was great trip.

Steelin' Sometime with My Dad

By Kyle Kordona

When the alarm went off at 4:30 am I thought, "Why did I sign up for this?", but I knew that it would be worth it. The fog on the way up was almost scary how thick it was. However I knew that we were safe with my dad behind the wheel because he was only driving 35 mph on I-5. After an unexpected cancelation of a drift trip on the lower sac, my dad and I walked and waded around the lower sac and hooked into 1 or 2 fish but didn't catch anything. After a nice lunch in Redding we set off for Indian Creek Lodge. We pulled in anxious to get a line in the water. We waded around and hooked into one fish. After meeting up with the group and eating dinner at the very elegant country club down the street, me and my dad fell asleep dreaming about hooking into a large steelhead. The next morning we woke up and met with our guide Mat who was a phenomenal guide. After a long day and a couple dreams the night before about large fish. Absolutely no fish that day for anyone. However I got to spend a great weekend with some great people... especially my dad. My father and I look forward to doing it again next year.

FFD OUTREACH: SALMON IN THE CLASSROOM

Summary by Rachel Skinner • 2nd Grade Waggoner Elementary School, Winters CA

Dear Adney and Fly Fishers,

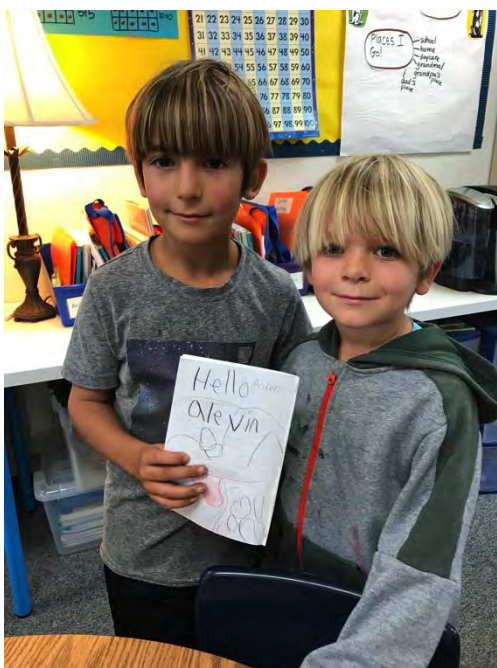

The second graders really enjoyed the salmon this year. We integrated our study of salmon into writing, singing, and science this year. The students wrote a song where each verse tells about a stage in the life cycle. We also wrote question/answer books called *Hello, Alevin!* modeled after a library book called *Hello, Baby Beluga!* The students invited kinder students to listen to them read their stories. We do not have funding to take a bus ride to the salmon release. However, in Winters, the salmon have returned to Putah Creek and we took a walking field trip to watch the salmon swim upstream! We spotted 3 different pairs of salmon on this trip. Please see attached photos. It will take several emails to attach all the photos, so stay tuned. Thanks again for your support!

The Fisherman's Line is published by:
 The Fly Fishers of Davis
 P. O. Box 525
 Davis, California, 95617

The Fly Fishers of Davis (FFD) is a non-Profit 501.C.4 charitable organization dedicated to the education, participation, conservation and enhancement of fly fishing. Annual associate and family (**member's spouse and children living with named member up to max age 25**) membership is \$30 beginning with each calendar year. FFD meets monthly except for the months of July & August. Regular monthly meetings are held the last Tuesday of each month except for December and February. December meetings are held the second Tuesday to accommodate holiday schedules. February hosts the Annual Dinner meeting which is scheduled in the latter part of the month based upon facility arrangements.

FFD is an affiliate club of the Federation of Fly Fishers (FFF), an international nonprofit organization, and its Northern California Council (NCCFFF) affiliate.

Meetings and membership are opened to the public.

The Fly Fishers of Davis provide equal opportunity membership without discrimination on sex, race, origin, age or religious orientation.

E-Newsletter Policy

Our policy is to deliver the e-newsletter via email OR you may download it from the FFD website at: <http://www.flyfishersofdavis.org/news1.shtml>

Be sure if you signed up for the \$30 annual membership that you get your email address to **Lyn Hooper** at membership@flyfishersofdavis.org. This will assure that you get an email notification of the newsletter. Each month, except June & August the e-newsletter will be posted to the above site and emailed about 1 week before the meeting. You will need Acrobat Reader <http://www.adobe.com/products/acrobat/readstep2.html> to view the PDF format.
