Volume 55 Issue 3

*The Fisherman's Line*

## March Meeting: Tuesday March 31, 2026 7:30 pm @ Stonegate Country Club

919 Lake Blvd, Davis, CA 95616

*This* month, FFD member Bob Zasoski presents Fly-Line and Leader Connections.

CABA scholarship recipient, Leanne Pearl, will talk on Fange Fish Conservation.

Bob will discuss and demonstrate lines and leader connections and offer some insights, biases and guide wisdom accumulated over 60+ years of fly fishing for trout, saltwater fish and steelhead.

Modern welded loop connections have made it much easier to connect lines, leaders and running lines. However, easier doesn't equate to better. Bob will examine some issues and fixes.

Understanding how line components interact will allow you to rig your rods, avoid weak connections and construct custom lines for specific venues at a substantial cost savings.

Bob will examine and demonstrate some connections that may help you set up your line connections.

## **THE PREZ SEZ**

*By Ron Rabun*

The **ANNUAL DINNER** on **Saturday, March 14<sup>th</sup>** was a resounding success. Around 120 attended, including representatives from Casting for Recovery (CFR). CFR's representatives, Laura, Lori and Nicole, accepted our 2026 donation.

Our annual Cary Boyden Fish Camp Scholarship recipient, Elijah Brownstein, accepted his Fly Shop certificate. Elijah also was quite prolific at collecting a significant number of ticket bucket items containing fly tying materials. He said that he's attending the 101 Fly Tying class and is most excited about fly tying.

There were over 70+ bucket items, 10 rods/reels and more High Roller prizes, a dozen Silent Auction bids and many Drawing Items. Dana's Float N Fly trip on Berryessa brought a final bid of \$400!

We must acknowledge the Dinner assistance crew who showed up at 10 in the morning to do the setup and arrange all the drawing items. It seemed more than two dozen members showed up making short work of it. All was done by noon. Assisting Dana, there was an extensive cooking and kitchen crew setting up the service trays, salads and desserts (too many to name). Ryan Mitchell took on the vigorous chore of handling the credit cards and cash. Peter Hawes guided everyone to their favorite refreshments (water, soda, beer and wine).

This year's **President's Service Excellence Award(s)** recognized **Paul Berliner** and **Dana Hooper**. Paul filled in as "Not The Prez" during the last year while the President's position was vacant. He also put in a tireless amount of time updating the FFD website with more key email addresses and adding Board of Directors meeting minutes link to the member portal. **Chef Dana** stepped up this year to lead the dinner effort. Aside from obtaining the drawing items, Dana obtained the food at a discount and led the BBQ. This effort saved us around **\$2000!** As Prez, I obtained and awarded Paul and Dana each a **Wheatley compartment box with nymph pad** in recognition of their club service.

Notable March Board discussion items were: 1) Annual Dinner; 2) Eblast software upgrade to multiple administrator version upgrade; 3) NCCFFI Putah Creek Clean UP June 13<sup>th</sup>; 4) FFI Membership and Insurance approved since current insurer cancels as of April 26; 5) Some aquarium chillers that we provide to Salmon and Steelhead in the Classroom are failing, so funding new chillers needs to be determined.

Our August North Umpqua Small Mouth Bass Outing for August Group 1 (17-18-19, fishing 18-19) is full. Group 2 (19-20-21, fishing 20-20) still has openings. See the August Umpqua Outing summary later in this newsletter. Now that fishing season is upon us, see the other Outings listing below and signups at the meeting.

### **MAY MEETING SWAP MEET and ADVERTISING**

The May Meeting will have a member Swap Meet in the parking lot, beginning at 6pm. Bring your own table or pickup truck to display items. The Board approved that **members only** can provide a list of items they want to trade or sell for the upcoming April and May newsletters by emailing the list to [FFD Newsletter Submissions](#). Your name and a bullet list of items (no phone numbers or emails) can be provided to the newsletter editors by the 15<sup>th</sup> of each month. The list will be posted in the newsletter. If you're not able to attend the Swap Meet, then you can give your items to a friend to sell/swap. **NO COMMERCIAL SALES WILL BE ALLOWED.** The Meeting Program will be brief to allow for adequate Swap Meet time. The Monthly Program will be a walk around Exhibition of Fly Tying Art to be provided by Ron Rabun from his collection of Federation of Fly Fishers Fly Plates and other notable Industry Fly Tyers collected over the past 40 years. Fly Plates include tyers including Herrop Brothers, Lani Waller, Bob Clouser, FFI Phantom Fly Tyers and more.

## **CONSERVATION REPORT**

*By Lowell Ashbaugh*

**Conservation Mailing List** Want to keep up on conservation issues in between newsletters? Join the FFD Conservation Google Group list. Click [here](#) for instructions on how to join, and search for “FFD-Conservation”. Or send an email to [Ashbaugh.lowell@gmail.com](mailto:Ashbaugh.lowell@gmail.com) with your request.

**Note:** I’m still looking for someone who would like to take up this column, preferably someone a few years younger than me. It’s not hard, but it will take a couple of hours each month to put the column together – less if you’re more organized than I am. I’ll help you get started.

**Klamath River** chinook salmon have been documented spawning in Upper Klamath Lake tributaries for the first time in over a hundred years. Dan Bacher has a full report in [Daily Kos](#) that I’ll summarize here.

A. Photo credit Mark Martin, Klamath Tribes Amboda

The Klamath Tribe’s Ambodat Department announced the first documented observation of naturally reproduced chinook salmon recorded in Upper Klamath Lake tributaries on March 18, 2026. This observation builds on the first documented salmon returning to the river in 2025, when the first adult salmon were documented in the Williamson River. The salmon were captured using rotary screw traps that use the river’s flow to turn a cone-shaped drum that gently guides fish into a live collection box.

The Klamath Tribes operate the rotary screw traps throughout the year to monitor outmigration, fish abundance, and overall fish health as they continue to make fishery management decisions.

This is further documentation that removal of fish barriers allows the fishery to recover, and that nature seems to work faster than anticipated.

**California’s commercial salmon fishery** was closed for three years from 2022-2024, and was open for only a brief period in 2025 for recreational anglers. Similar closures and limited seasons impacted the Feather, American and Mokelumne rivers. This year the Pacific Fishery Management Council (PFMC) adopted three alternative options for 2026 that are open for public review until the Council makes a final decision at its meeting April 8-12, 2026.

Detailed information about season starting dates, areas open, and catch limits for the three options is available on the Council’s website at [www.pcouncil.org](http://www.pcouncil.org), according to a report by Dan Bacher in the [Elk Grove Daily News](#).

The coastal area from Pigeon Point to the Mexico border will open on April 11. The coast north of Pigeon Point to the Oregon border will open May 15. There will be a quota for each of four zones, one south of Pigeon Point and three more to the north. The Council will take public comments on the three alternatives (including quotas) at its next meeting in Santa Rosa on March 23.

The National Marine Fisheries Service forecasted a salmon abundance of 392,349 fish (don’t ask me how they can estimate it that precisely!) for this year. Although this salmon abundance is much improved over the previous few years, it’s well below historical averages.

The Golden Gate Salmon Association wrote “The heavy runoff into the Central Valley rivers created conditions much closer to those juvenile salmon need to survive, underscoring the benefit salmon enjoy when there’s enough water in Central Valley rivers.”

The detailed proposed options for California are found on pages 7–10 of the [proposal document](#). You can learn more about the PFMC at <http://www.pcouncil.org>.

**You may recall** that a pipeline rupture at the New Colgate Powerhouse on the North Yuba River dumped tons of debris and oil into the river in mid-February. That spill is being cleaned up by the Yuba Water Agency, but it will be years before the powerhouse is working again. The timeline is still being assessed.

Meanwhile, a project on the lower Yuba is still ongoing to construct a “nature-like fishway” to guide fish around the Daguerre Point Dam. The dam currently has fish ladders on each side, but the fishway will provide a more natural way for fish to get around the dam by carving an extension of the river that loops around the dam in a “natural” manner. This would allow fish to more easily get above Daguerre Point Dam into the reach that ends at Englebright Dam. The problem with that, according to the angling community, is that the fishway will also provide a path for predators to reach the 10-mile stretch of the Yuba that is prized for trout and salmon. Frank Rinella, with the conservation arm of Gold Country Fly Fishers says his group remains concerned about the threat of striped bass and American Shad, and they are pressing wildlife officials to implement additional measures to exclude them from the upper reaches.

**The State Water Resources Control Board** released for public comment a [draft water right decision and associated permit](#) for the 1.5 million acre-feet Sites Reservoir located near the town of Maxwell.

The authority applied to the State Water Board for a water right permit in May 2022. Following application revisions and a formal protest period to address and resolve the concerns of interested parties, the board in November 2023 assigned the matter to its Administrative Hearings Office.

The hearing process involved multiple parties over 32 separate hearing days. The draft decision evaluates the evidence and legal arguments received during the proceedings and provides the rationale for conditions contained in the draft water right permit. In drafting the Sites decision, the State Water Board considered multiple competing needs and set draft conditions to protect senior right holders, water quality, and flows for fisheries in the Sacramento River and Sacramento/San Joaquin Delta.

The conditions proposed in the draft include the following:

- Annual diversions limited to 986,000 acre-feet.
- Requirements to align the proposed water right with the planning processes underway for the Bay-Delta watershed.
- Operating criteria at the diversion facilities to protect fisheries.

The project would use existing infrastructure to divert water from the Sacramento River near Red Bluff and Hamilton City. New and existing facilities would transfer water into and out of the reservoir, ultimately releasing water back to the Sacramento River system via canals and a pipeline for use by storage partners.

After the 60-day public comment period ends on May 22, the hearings office will evaluate the input received and, if appropriate, revise the draft decision and permit for consideration by board members. The board will provide a second comment period prior to final consideration of the water right decision and water right permit. Additionally, Sites has applied to the board for a water quality certification, which is also required for the proposed project and obtained through a separate process.

More information on the [Sites water right application](#) can be found on the board website.

## **FLY FISHERS OF DAVIS FLY CASTING PROGRAM**

*By Jeff Hogan*

The recent March casting clinic held at Gristmill on the American River was attended by 4 extremely eager students on an absolutely beautiful day. With the assistance of Bob Zasoski, the session started with the versatile **Roll cast** performed on the dominate and non-dominate side enabling the student to perform this cast regardless of wind direction or obstacles next to them. Then, how to present the fly, so the fly line is directly upstream of that fly in the same current seam was taught using the **Curve cast**.

Practicing the Roll Cast

Students receiving instruction from Jeff

I then demonstrated how that cast can present a streamer and strip it directly downstream in a current seam or right next to an undercut bank — deadly! After a short break we got back in the water and learned both **Aerial mends** (an aerial mend in manipulating the fly line AFTER you stop the rod to present the fly but before the fly hits the water) and **Water mends** which is moving the line after the line is on the water. All designed to allow the fly or nymph to drift drag free to the fish you are targeting.

The session ended by revisiting the roll cast and me demonstrating the **Roll cast Pick-up**. This is a wonderful technique I use when fishing directly upstream and only have one hand on the rod and line because the other is holding a wading staff. This technique allows you to manage slack, pick up the fly, dry it off, and reposition it back upstream with only one back cast! Here it is: Roll cast - Back cast - Forward cast to present the fly.

April's clinic will be held Sunday, April 19<sup>th</sup> at Northstar Park pending any post Picnic Day conflicts. If you are aware of any, contact me: [casting@flyfishersofdavis.org](mailto:casting@flyfishersofdavis.org). The topic will be Casting Potluck! You arrive with what you want to learn or get help with. Don't hesitate to contact me if you have questions or concerns.

Proof of a great day of instruction! The Master Casters, Jeff and Bob Z.

**FFI'S FLYFEST 2026 IS COMING TO REDDING, CA**  
**SEPTEMBER 25-26, 2026**

[From Flyfishers International](#)

Fly Fishers International's [FlyFest 2026](#), presented by The Fly Shop, returns September 24–26 in Redding, California, bringing anglers together for three days of learning, connection, and celebration in Northern California's trout country.

As FFI's signature event, FlyFest welcomes anglers of all ages and skill levels. Held at the Redding Civic Auditorium, the weekend features expert-led presentations, casting and fly-tying demonstrations, and a vibrant consumer trade show, all designed to create meaningful opportunities to learn, connect, and share in the culture of fly fishing.

One simple registration includes access to all core programming, with optional small-group seminars available for those looking to go deeper. The event concludes with a community dinner and fundraising auction in support of FFI's mission and conservation efforts.

Rooted in education, community, and stewardship, FlyFest is a gathering fly anglers won't want to miss. And this year, we're doing something different. We're inviting the FFI community into the shaping of the event .

## **UPCOMING 2026 NORTH UMPQUA RIVER TRIPS!**

*By Ron Rabun*

### **North Umpqua River Smallmouth Outing: Group 1 - August 17-19 (full) Group 2 - August 19-21**

This two-day adventure targets Smallmouth Bass on the North Umpqua River, Elkton, Oregon. This trip is our traditional summer Small Mouth Bass trip. Two groups of 3 boats/6 anglers (2 anglers per boat) are scheduled. The fees include three nights of lodging at Big K Ranch located on the North Umpqua River (river take-out) scheduled for Group 1 August 17-18-19 (fishing 18/19); Group 2 August 19-20-21 (fishing 20-21).

NOTE: There are a few Big K Trip differences from prior Airbnb trips. All fees are approximate. Including dinners this estimate is approximately \$100 per day more than our previous Airbnb formula. Big K value differences include restaurant dinners and breakfast; additional float tube fishing available on last day on Big K water; no responsibility for dinner or breakfast preparations; no Airbnb deposits or cleaning fees. Limited to 6 anglers per group. Minimum "go" 2 anglers/1 boat per 2 day per group schedule.

**For BOTH trips:** Fishing 2 days with 3 nights lodging will cost approximately \$950 per person (including a \$50 per day guide tip). This year, we will again be fishing with Wolf Pack Guide Service of Elkton, Oregon. 2-Day guide fee per angler \$600 plus tip. Three nights lodging at Big K Ranch is \$225/night (plus 1% tourism fee)/ 2 person shared cabin, or approximately \$340 per person.

Breakfast and dinners *al a carte* at the Big K restaurant or local restaurants are not included in the trip fees. Lunch is angler's responsibility. Guides will provide water. Total estimated trip fees cost as stated above total \$950 plus \$50 per day per person guide tip and plus Big K café breakfast/dinner \$50 per day. Estimated total trip cost \$1100 per person.

**Deposit for August Bass is \$300 (\$100 guide, \$200 Big K) by June 15, 2026.**

Pay to Ron Rabun, 916-716-2659 (check or Zelle). Unreserved FFD spots may be offered to California Fly Fishers Unlimited (CFFU) and Granite Bay Flycasters (GBF) members. Balances due to guides and Big K at time of service.

## **CALL FOR FLY TIERS!**

*By Paul Berliner*

This year, **Duck Days** and **Picnic Day** are back, and our ace fly-tying team could use a few volunteers at the FFD fly-tying tables. These are two great outreach events for our club. We meet folks of all ages, tie flies for the kids, hand out FFD brochures, and chat-up our great club!

### **Picnic Day**

UC Davis **Picnic Day** is **Saturday, April 18**, and we'll be tying wooly buggers galore in the Entomology Department in Briggs Hall. You'll get to see the bugs in action and help to tie the bugs!

### **Duck Days**

This year, **Duck Days** is the very next week: **Saturday, April 25**, at the Yolo Bypass Wildlife Area Headquarters, 45211 County Road 32B in Davis. Our booth will be indoors again this year, so that our feathers don't fly all over the bypass!

### **Please Volunteer!**

To help out with either (or both) events, please contact me at [flytying@flyfishersofdavis.org](mailto:flytying@flyfishersofdavis.org). And for an enjoyable day, regardless, please stop by our booth at both events, bring the kids, and enjoy! Thanks in advance for your help!

## **FLY FISHERS OF DAVIS ANNUAL DINNER - 2026**

*By Stuart Meyers and Marc Wilson*

The Fly Fishers of Davis held our Annual Dinner at Lillard Hall on Saturday March 14th, 2026 and everyone had a wonderful time, including lots of fishing tales, comradery, awesome BBQ Tritip, chicken, and sides by Dana H and crew. There was beer, wine, soft drinks, and of course, raffles and silent auctions. Paul once again, created a great video of members fishing around the world and FFD presented a \$1500 Casting for Recovery (CFR) scholarship to our local CFR representatives, Nicole, Laura, and Lori. This scholarship will sponsor one breast cancer survivor at an upcoming CFR retreat. President Ron presented a Fish Camp Scholarship to Elijah Brownstein to attend a youth fly fishing retreat. And Ron presented the coveted President's Award to Paul and Dana for their service to the club! Here are a few moments in time:

Pre-prep in da kitchen

The chefs, Dana and Dave

The chef's supervisors

Son cutting up the amazing tri-tip!

Hot job, well done

Tables ready for a wonderful evening

Off to a great start!

The finished product, enjoyed by all!

Buckets and more buckets...

Raffle masters calling out the winners

Dinner time!

Adam wins a high roller item!

## **PUTAH CREEK CLEANUP & RESTORATION PROJECT** **JUNE 13, 2026**

Northern California Council of Fly Fishers International (NCCFFI) is looking for [volunteers](#) for the Putah Creek follow-up Cleanup scheduled for June 13<sup>th</sup>. This cleanup will cover key access points and include garbage clean up as well as other restoration work to be done.

The plan calls for current “existing trails” to be opened to the width of roughly 4 to 6 feet. Riparian areas marked with signs (and with irrigation lines) are to be left alone — as these support local plants (including milkweed) that sustain endangered monarch butterfly populations.

People that have pickup trucks that can assist in trash removal to debris bins in Winters after the cleanup are asked to bring them. If you are a member of a fly-fishing club, it would be good to set up car-pools to save gas and due to limited parking at the various access points on Putah Creek.

The plan is to meet at Steady Eddy’s Coffee House located at 5 E Main St Suite A in Winters at 7:30 AM on June 13<sup>th</sup> where people/groups will be assigned to one of the team leaders (selected by John Feaster) and head to their designated access point. Work should commence about 8 AM and finish by noon.

**To volunteer, please go to the NCCFFI website [www.nccffi.org](http://www.nccffi.org) and sign up.**

## *California Fly Fisher Magazine – Special Offer*

### **Celebrate California Fly Fisher's Relaunch Anniversary with a Special Offer for Fly Club Members**

For more than three decades, *California Fly Fisher* has been the go-to publication for anglers who care about California's fisheries, wild trout, and the craft of fly fishing. In July 2024, the magazine underwent a beautiful redesign and relaunch—and it's better than ever in both print and digital formats.

To mark their one-year relaunch anniversary, *California Fly Fisher* is offering club members an exclusive subscription discount—plus 10% off all merchandise.

Special Anniversary Rates for Fly Club Members:

- \$39.95 – One year print + digital
- \$20.00 – One year digital-only

Use promo code FLYCLUBANNIV at checkout.

Subscribe at [calflyfisher.com/subscribe](https://calflyfisher.com/subscribe) or scan the QR code below:

## **CALIFORNIA BOATER CARD**

### **An important reminder to all FFD boaters!**

**If you do not have a California Boater Card you are **not in compliance with California Law.****

The California Boater Card shows that its holder has successfully taken and passed a NASBLA (National Association of State Boating Law Administrators) state-approved boater safety education examination. The California Boater Card program was phased-in by age for operators of motorized boats on state waterways.

As of January 1, 2025, all persons who operate on California waters were required to have one. The lifetime card fee is \$10. The lost card replacement fee is \$5.

The card is issued by the California State Parks Division of Boating and Waterways (DBW). Once DBW has received your application, proof of education and payment, and after taking an approved course and successfully passing the test, you will receive a 90-day temporary boater card by email. You should receive your official boater card by mail within 30 days from the time the application was approved.

Not only is mandatory education the law, the California Boater Card Program promotes boating safety on our waterways. U. S. Coast Guard accident data show that states with some form of boating safety education have fewer accidents and fatalities than states without any boater education requirements.

For more information, or to apply for the card, please visit <https://californiaboatercard.com/>

**FLY FISHERS**  
INTERNATIONAL

**NORTHERN CALIFORNIA**  
COUNCIL

[Home - Northern California Council, Fly Fishers International \(NCCFFI\)](#)

## **MEETING SCHEDULE**

The meeting schedule has been tentatively set for the next few months. Peter Hawes is the program chair. Let him know if you like the program speakers, or, if you have ideas for one, please let us know at the next meeting.

<b>Fly Fishers of Davis 2026 Meeting Schedule</b>			
<b>MONTH</b>	<b>SPEAKER</b>	<b>DATE</b>	<b>TOPIC</b>
March	Bob Zasoski and FFD Club Members	March 31	Fly Lines and more
April	Dave Gumpel	April 28	Hunting for Bolivian Gold-Golden Dorado
May		May 26	Swap meet
June	Annual Picnic	June 30	Addled Angler Award Presentation

## **IT'S TIME TO RENEW YOUR MEMBERSHIP**

### IMPORTANT MEMBERSHIP RENEWAL DETAILS

**Website Members:** If you signed up for membership on the new FFD website, you will get an email in the late December/early January timeframe with your renewal details. No need to go to the website before that, so please wait for your renewal information email.

**Website Non-members:** If you're an FFD member, but you did not sign up on the website and you wish to renew your Membership, please stop by the membership table at our next in-person general meeting, and pay your dues with check, cash, or credit card. You can also send a renewal check to Fly Fishers of Davis, P.O. Box 525, Davis, CA, 95617.

**Note:** Our preferred method is for website non-members to become website members, by signing up on the website!

Dues for individuals and family memberships are \$35/year, and a student membership is \$10/year. Your dues help to fund many club activities — including our superb array of guest speakers, outings, the annual picnic, fly-casting and fly-tying clinics, our amazing FFD 101 classes, Salmon in the Classroom, and best of all, our contributions to numerous outreach, education, and conservation organizations. Thank you for your generosity and support!

## **BOARD OF DIRECTORS MEETINGS**

Your FFD Board of Directors (BOD) meets once per month on the second Tuesday of each month (effective February 2026) to discuss many aspects of the club, including charitable contributions, conservation, budget planning, and the Annual Picnic and Annual Dinner. If you'd like to attend a board meeting, bring up an issue or send a message, the BOD meets in Davis, and welcomes your feedback! Since meeting places may change, please contact a board member or club officer for time and place details if you would like to attend.

# OUTINGS & EVENTS - FFD 2026

## PROPOSED FFD OUTINGS & EVENTS

Trips & Events 2026	Species & Info	Dates	Contact	Notes

## The Fly Fishers of Davis

**P. O. Box 525 • Davis, California, 95617-0525**  
**Copyright © Fly Fishers of Davis • All Rights Reserved**

The Fly Fishers of Davis (FFD) is a non-Profit 501.C.4 charitable organization dedicated to the education, participation, conservation and enhancement of fly fishing. FFD meets monthly. Our regular meetings are held the last Tuesday of each month except for December, and other exceptions are noted in our newsletter. FFD meetings and membership are open to the public. The Fly Fishers of Davis provide equal opportunity membership without discrimination on sex, race, origin, age or religious orientation.

### E-Newsletter Policy

Each month, the e-newsletter will be posted to our website and emailed prior to the meeting. To view our PDF newsletter, download Acrobat reader at: <https://get.adobe.com/reader/>. Members are urged to maintain their current email address and other important personal data by logging in, and visiting: <https://flyfishersofdavis.org/account/>. This ensures accurate communication and notification of our monthly newsletter, which is also downloadable at: <https://flyfishersofdavis.org/media/newsletters/>.

### How to become a member of the Fly Fishers of Davis

FFD collects annual dues for individual memberships (\$35), student memberships (\$10) and family memberships (\$35). Family membership may include a spouse and children living with named member up to maximum age of 25. All family members will share one membership and username. Please provide a valid email address. For insurance reasons, you must be a current club member or registered family member to attend any of our fishing outings. For more information or if you have questions, please email [membership@flyfishersofdavis.org](mailto:membership@flyfishersofdavis.org)

- Membership benefits: go to <https://flyfishersofdavis.org/about/membership-benefits/>
- New members ONLY: to join, go to <https://flyfishersofdavis.org/memberships/>
- Existing members, login and dues assistance: email [webmaster@flyfishersofdavis.org](mailto:webmaster@flyfishersofdavis.org)

**Important:** The views and opinions expressed in this newsletter’s articles are those of the respective authors only, and do not necessarily reflect the views or positions of the Fly Fishers of Davis Board of Directors, or the club’s general membership.

**Newsletter Submissions:** To send articles and photos etc. to be included in the newsletter, email all materials to [newsletter@flyfishersofdavis.org](mailto:newsletter@flyfishersofdavis.org). Please put *FFD The Fisherman’s Line* in the subject line. Deadline for materials is the 15<sup>th</sup> of each month. Not all submissions will be published.
