The Fisherman's Line

April Meeting: Tuesday April 28, 2026 7:30 pm @ Stonegate Country Club

919 Lake Blvd, Davis, CA 95616

Don Childress Presents: Fly Fishing the World

*T*his month, Fly Fishers of Davis will feature Don Childress and his PowerPoint presentation on Fly Fishing the World.

Don is one of the original founders of the Fly Fishers of Davis, back in 1972. Don was FFD's second president, after John Salido. Don has traveled and fished extensively around the globe and will share some of the highlights of his trips. This promises to be a fast-paced interesting program.

THE PREZ SEZ

By Ron Rabun

We received a Thank You Note from Lori, Laura and Nicole of Casting for Recovery (CFR). They noted that our donation sponsored two participants at the recent outing.

The **ANNUAL DINNER** outcome yielded approximately \$8000 profit which puts FFD operating funds at slightly above normal annual April levels. Thanks again to Dana Hooper for his work on acquiring the food, head chef duties and obtaining prizes. Member donations added a big boost also. With FFD self-catering, we saved around \$2000 over a commercial caterer. 2027 dinner plans are considering a similar approach.

I'm glad my good friend, FFD founding member and retired local dentist, Don Childress will be in Davis to provide his program, **FLY FISHING THE WORLD**, at our next meeting. Don retired after partnering with his brother, Jim. Don now lives in Sand Point, Idaho, and still travels internationally 4 to 6 trips a year. Since joining FFD in 1975, I've fished with Don in various locations including Loreto, Alaska, Christmas Island, Kootenay River, Missouri River and northern California's Upper Sacramento River. In 1972 Don and other Davis fly fishers began fly tying sessions and fishing outings. Eventually, the Fly Fishers of Davis were formed by Don, Mort Schwartz, Orris Gibson, John Salido, Ray Fisher and other Davisites. I joined FFD in Fall 1975 and began fishing trout on the Upper Sac in Dunsmuir under the guidance of Don. Other early members included Steve Ohrwall, Daryll Davis, Bill Schnathorst, Cal Kado, Jon Knapp, Sarge Reynolds and Cary Boyden. At the time, Putah Creek/Solano Lake and Pyramid Lake were our favorite fisheries. *Let's have a great turnout welcoming Don back to FFD.*

MAY MEETING SWAP MEET and ADVERTISING

The May Meeting will have a member Swap Meet in the parking lot beginning at 6:00 pm. Bring your own table or pickup truck bed to display items. The Board approved that members only can provide a list of items they want to trade or sell for the upcoming May newsletter. Your name and a bullet list of items (no phone numbers or emails) can be provided to the newsletter editors by the 15th of May. The list will be posted at the end of the newsletter. If you're not able to attend the Swap Meet, you can give your items to a friend to sell/swap. A reasonable number of items will be permitted. **NO COMMERCIAL SALES WILL BE ALLOWED.**

The Meeting Program will be brief to allow for adequate Swap Meet time. The Monthly Program, Exhibition of Fly-Tying Art, will be provided from my fly-tying art collection. Federation of Fly Fishers Fly Plates and other notable Industry Fly Tyer plates and art will be set up from those collected over the past 50 years. A brief slide show will explain collection highlights with a "walk around exhibition." Fly Plates include: Lanii Waller, Bob Clouser, Harrop Brothers, Federation Phantom by Nick Lyons, Federation Award winner Plates. Kent BulFinch, Mike Monroe, and more.

The **Putah Creek Cleanup & Restoration Project is June 13.** If you decide to attend, be sure to sign up via the NCCFFI website. The announcement and link to sign up is in the newsletter below. Thanks!

CONSERVATION REPORT

By Lowell Ashbaugh

Conservation Mailing List Want to keep up on conservation issues between newsletters? Join the FFD Conservation Google Group list. Click [here](#) for instructions on how to join, and search for “FFD-Conservation”. Or send an email to Ashbaugh.lowell@gmail.com with your request.

Note: I’m still looking for someone who would like to take up this column, preferably someone a few years younger than me. It’s not hard, but it will take a couple of hours each month to put the column together – less if you’re more organized than I am. I’ll help you get started.

As I mentioned at the last meeting, the Trump Administration is making big changes to the U.S. Forest Service. This is important because many of the places we love to fish in are within national forests. Here’s a brief rundown of the changes so far.

Brooke Rollins, Secretary of Agriculture, decided to move the Forest Service headquarters from Washington, D.C. to Salt Lake City, Utah. The press release announcing the move describes it as bringing employees closer to the outdoors and the forests they manage. On the other hand, the move will undoubtedly cause a lot of workers to quit instead of uprooting their lives and their families. I’ve received an email from a person who periodically travels to DC to interact with USFS personnel, and he describes the DC office as nearly empty.

More recently, Rollins announced that the USFS will close 57 of the 77 research facilities currently used by the Service. Most of the 57 closed research facilities were located at universities and conducted research into how climate change, droughts, and wildfires affect forests. I’ve personally worked with scientists who work on wildfire research and smoke emissions. The research is cutting-edge and is not conducted elsewhere. The shuttering of so many research facilities is a denial of science and will make it more difficult to manage the forests that we love to fish in. Climate change will certainly change the forests due to potential flooding during severe storm events, increased severity and length of droughts, and increased wildfire risk.

If you feel so inclined you can comment on these changes by contacting Tom Schultz, Chief of the U.S. Forest Service, 1400 Independence Ave., SW, Washington, D.C. 20250-0003, or by calling the headquarters at 800-832-1355. Another way to comment is to contact Brooke Rollins, Secretary of Agriculture, at the same address or use the [USDA online contact form](#), or email feedback@usda.gov.

More than 6.2 million juvenile Sacramento River Fall-run chinook salmon were released from the Coleman National Fish Hatchery on March 23. Fishery conservation groups immediately asked the Bureau of Reclamation to increase water flows from Shasta and Keswick dams to avoid a massive fish kill and aid the juvenile salmon in their trek to the ocean. At the time of the fish release, water releases from Keswick were only 3920 cfs, and at Bend Bridge were only 5910 cfs. River flows at Wilkins Slough need to be near 11,000 cfs for survival of juvenile salmon but were only 8070 cfs.

Golden State Salmon Association executive director Vance Staplin sent a letter to the Bureau’s acting western regional director, Adam Nickles, requesting higher pulse flows to aid the salmon. The NorCal Guides & Sportsmens Association also issued an action alert calling on Reclamation to release higher flows into the Sacramento River.

The pressure campaign seemed to work, as two weeks after the salmon release the Bureau of Reclamation announced a planned schedule of a spring pulse flow release from Keswick Dam. Reclamation officials said the pulse flows would target flow rates of 11,000 cfs at Wilkins Slough beginning April 8. The flows would increase and decrease over the course of several days to help the salmon reach the ocean.

In response to the Bureau's announcement, Vance Staplin said, "It is encouraging to see the Bureau change direction, and now collaborating with Coleman National Fish Hatchery to time a pulse flow that will help push the recent release of just over two million smolts down the Sacramento River." You can read more about this in two stories by Dan Bacher at DailyKos [here](#) and [here](#).

The Sites Reservoir has passed another administrative hurdle. Late last month the Administrative Hearing Office of the State Water Resources Control Board issued a draft water rights decision for Sites. The hearing process for the water right has been going for months, and involved 21 parties, 60 witnesses, and 2,115 evidentiary documents over 32 hearing days.

The State Water Board said it "considered multiple competing needs and set draft conditions to protect senior right holders, water quality, and flows for fisheries in the Sacramento River and Sacramento/San Joaquin Delta."

The hearing resulted in a water rights decision with conditions that include diversions limited to 986,000 acre-feet of water (approximately the volume held by Folsom Lake), requirements to align the proposed water right with the planning processes underway for the Bay-Delta watershed; and operating criteria at the diversion facilities to protect fisheries.

The California Water Impact Network (C-WIN) countered the praise from the Water Board by pointing out that the decision allows the Newson Administration to formalize strategies for diverting water from the Sacramento River for the Sites reservoir. The reservoir's current construction cost estimate is between \$6.2 and \$6.8 billion, according to the Sites Project Authority.

The water rights decision requires the Sites Project to operate based on flow rules for the Sacramento River and it imposes conditions designed to maintain water quality. This will drive up the cost to deliver water to the big agricultural interests that comprise most of the clients for the project. It also precludes the project from diverting or rediverting water from the Trinity River that has been diverted from the Trinity River into the Sacramento River.

Friends of the River pointed out that the project would inundate habitat and reduce flows needed for salmon, while producing relatively small amounts of water at high cost. "The draft water right decision clearly shows that the board agrees with our position that the proposed reservoir will cause major water quality and environmental impacts that need to be addressed," said Keiko Mertz, Policy Director at Friends of the River.

"We appreciate that the board adopted some of our recommended safeguards, but important gaps in protection remain for some of the state's most valuable resources."

The Sites Project Authority reportedly does not like the conditions in the decision and issued a statement saying they are reviewing it.

The Board will accept written comments from the public on the Draft Decision and Draft Permit submitted to sites-wr-application@waterboards.ca.gov by the end of day (11:59 p.m.) on **May 22, 2026**. You can read the draft decision [here](#) at the board's website.

FFD FLY CASTING PROGRAM

By Jeff Hogan

The morning of the April 19th Casting Potluck greeted us with partly sunny skies and zero wind, a perfect start. The event was attended by 8 very eager anglers ranging from never casted a fly rod to decades of fly casting.

With such a wide range of abilities, the students were divided into two groups: beginner and experienced with Bob Zasoski and I each taking a group, providing them the instruction, and the coaching they requested to satisfy their casting appetite.

The morning was filled with laughter, learning and multicolored fly lines cutting through the air. By the end of the session those lines were forming wonderful loops, and everyone had a smile on their face.

The stated goal at the beginning of the clinic, that everyone will walk away having become a better caster and had fun in that process was met.

The tentative date for the next clinic is Sunday May 17th, 9:00 AM to Noon at Northstar Park. The focus will be “line pulling”! What is that? Attend the clinic and learn how pulling the line can make you cast further, cut through the wind and just look cool!

See you then.

April Casting for Recovery Retreat

By Paul Berliner

Casting for Recovery (CFR) held their Spring retreat this month at Indian Creek Lodge, on the Trinity River near Weaverville. Fourteen participants (two of whom were sponsored by FFD) enjoyed an immersive weekend of fly-fishing education, socialization, and exceptional personal attention. I had the good fortune to act as a river helper on Sunday, along with other river helpers from numerous Northern California fly fishing clubs that also sponsored participants. Our role as river helpers is to take a CFR participant out for their very first steps wading in a river, practicing casting, demonstrating various fly-fishing techniques, and (hopefully) even catching a trout.

The weather was cold with constant rain, ranging from drizzle to major downpours, but all the participants elected to brave the elements. We fished across from the hatchery below the Lewiston Dam, and a few fish were hooked but not landed ... but with a CFR retreat, that's not the point! The point is making new friends, giving back some of our skills, splashing hand-in-hand into the water for their first experience, practicing casting, and allowing the participants to focus elsewhere, beyond their health issues. For the river helpers, CFR staff and all the participants, it's a heart-warming experience.

FFD EVENTS: LAKE BERRYESSA FLOAT N FLY

By Dana Hooper

We had a great turnout for the Float N Fly outing on Lake Berryessa, with 8 groups participating, and weather was perfect as you might expect in the Springtime. Everyone caught plenty of fish (some more than others) but we ended up with a great day of float n fly fishing for Bass — and whatever else might bite your fly.

We did have a first ever on this outing, with a beautiful 10 lb. carp caught by Brad Tom (see picture below). It gave him a good run around the boat before we could net and release him. We don't see that every day on a Shad fly! In other news, Stuart Meyers and Peter Hawes just about caught at least one of every species of fish in the lake!

A big thank you goes out to all the boaters that took out a non-boater for the day, and spent the time putting them on fish!

Easy fishing in calm waters today

It's double time!

Brad's colorful carp

Brad's Size XL smallmouth

Nice Smallie Jake

And another smallmouth bass

An unwelcome guest slithers for the shoreline!

FFD EVENTS: PYRAMID LAKE

By Dan Galloway

The last club trip to Pyramid Lake took place March 31st to April 3rd. In attendance were Andan Bailey, Peter Hawes, Dan Galloway, Mark Johnston and Jerry Cesar (Mark and Jerry were originally from the Solano Club). Mike Rivers had arranged for the large trailer at Pyramid Lake Resort, so we had plenty of room. The fishing was slow, other than for Andan, who had two double digit days on the big Lahontans. Peter decided to try surfing on his ladder in 3-foot waves. You can ask him how that went. A few fish were caught and released unharmed; a whole lot of great food was cooked and consumed in the trailer. Wish you were all there.

FFD EVENTS: HAT CREEK 101 OUTING

By Dana Hooper

Hello Everyone,

I have proposed to hold the Hat Creek Outing on May 15,16 and 17th. I plan to stay at Hat Creek Hereford ranch and get a few group campsites for those that want to camp. Please email me at outings@flyfishersofdavis.org if you plan to attend, and if you will camp with us, or stay somewhere else. I usually divide up the campsite cost between all those that stay in the sites.

This trip is a beginner's outing in the Hat Creek area, through the Cassel campgrounds region, and in many ways, it's the conclusion of my 101 class. For beginners (and everyone) you don't need waders, and we will not be wading in the water. It's a safe place to learn to fly fish from the bank with more ease than most places, with no worry about your back casts.

I will send a list of gear needed after I get the list of attendees. I plan to head up Friday after work or work from the road, and I plan on getting to Hat Creek Hereford ranch around 1 to 3:00 PM. For those that plan to come up Friday afternoon, we can all meet up at the Pizza Parlor in Burney to make it easier on the travel. It's a roundtable pizza with a different name.

Everyone needs to plan to bring their own breakfast for each morning and lunch for the day. As a bonus, I will cook Dinner Saturday night for all (menu still to come). Hat Creek Hereford Ranch has full bathrooms and showers in multiple spots in the campground. Most of the campgrounds I pick are grassy and nice to sit by a fire and socialize with the other attendees at the end of the day.

Please reply back or call me if you have any questions.

FFI'S FLYFEST 2026 IS COMING TO REDDING, CA
SEPTEMBER 25-26, 2026

[From Flyfishers International](#)

Fly Fishers International's [FlyFest 2026](#), presented by The Fly Shop, returns September 24–26 in Redding, California, bringing anglers together for three days of learning, connection, and celebration in Northern California's trout country.

As FFI's signature event, FlyFest welcomes anglers of all ages and skill levels. Held at the Redding Civic Auditorium, the weekend features expert-led presentations, casting and fly-tying demonstrations, and a vibrant consumer trade show, all designed to create meaningful opportunities to learn, connect, and share in the culture of fly fishing.

One simple registration includes access to all core programming, with optional small-group seminars available for those looking to go deeper. The event concludes with a community dinner and fundraising auction in support of FFI's mission and conservation efforts.

Rooted in education, community, and stewardship, FlyFest is a gathering fly anglers won't want to miss. And this year, we're doing something different. We're inviting the FFI community into the shaping of the event.

UPCOMING 2026 NORTH UMPQUA RIVER TRIPS!

By Ron Rabun

North Umpqua River Smallmouth Outing: Group 1 - August 17-19 (full) Group 2 - August 19-21

This two-day adventure targets Smallmouth Bass on the North Umpqua River, Elkton, Oregon. This trip is our traditional summer Small Mouth Bass trip. Two groups of 3 boats/6 anglers (2 anglers per boat) are scheduled. The fees include three nights of lodging at Big K Ranch located on the North Umpqua River: for Group 1 August 17-18-19 (fishing 18 - 19); Group 2 August 19-20-21 (fishing 20 - 21).

NOTE: There are a few Big K Trip differences from prior Airbnb trips. All fees are approximate. Including dinners this estimate is approximately \$100 per day more than our previous Airbnb formula. Big K value differences include restaurant dinners and breakfast; additional float tube fishing available on last day on Big K water; no responsibility for dinner or breakfast preparations; no Airbnb deposits or cleaning fees. Limited to 6 anglers per group. Minimum “go” 2 anglers/1 boat per 2 day per group.

For BOTH trips: Fishing 2 days with 3 nights lodging will cost approximately \$950 per person (including a \$50 per day guide tip). This year, we will again be fishing with Wolf Pack Guide Service of Elkton, Oregon. 2-Day guide fee per angler \$600 plus tip. Three nights lodging at Big K Ranch is \$225/night (plus 1% tourism fee)/ 2-person shared cabin, or approximately \$340 per person.

Breakfast and dinners *al a carte* at the Big K restaurant or local restaurants are not included in the trip fees. Lunch is angler’s responsibility. Guides will provide water. Total estimated trip fees cost as stated above total \$950 plus \$50 per day per person guide tip and plus Big K café breakfast/dinner \$50 per day. Estimated total trip cost \$1100 per person.

Deposit for August Bass is \$300 (\$100 guide, \$200 Big K) by June 15, 2026.

Pay to Ron Rabun, 916-716-2659 (check or Zelle). Unreserved FFD spots may be offered to California Fly Fishers Unlimited (CFFU) and Granite Bay Flycasters (GBF) members. Balances due to guides and Big K at time of service.

PUTAH CREEK CLEANUP & RESTORATION PROJECT **JUNE 13, 2026**

Northern California Council of Fly Fishers International (NCCFFI) is looking for [volunteers](#) for the Putah Creek follow-up Cleanup scheduled for June 13th. This cleanup will cover key access points and include garbage clean up as well as other restoration work to be done.

The plan calls for current “existing trails” to be opened to the width of roughly 4 to 6 feet. Riparian areas marked with signs (and with irrigation lines) are to be left alone — as these support local plants (including milkweed) that sustain endangered monarch butterfly populations.

People that have pickup trucks that can assist in trash removal to debris bins in Winters after the cleanup are asked to bring them. If you are a member of a fly-fishing club, it would be good to set up car-pools to save gas and due to limited parking at the various access points on Putah Creek.

The plan is to meet at Steady Eddy’s Coffee House located at 5 E Main St Suite A in Winters at 7:30 AM on June 13th where people/groups will be assigned to one of the team leaders (selected by John Feaster) and head to their designated access point. Work should commence about 8 AM and finish by noon.

IMPORTANT - To volunteer, please go to the NCCFFI website www.nccffi.org and sign up.

California Fly Fisher Magazine – Special Offer

Celebrate California Fly Fisher's Relaunch Anniversary with a Special Offer for Fly Club Members

For more than three decades, *California Fly Fisher* has been the go-to publication for anglers who care about California's fisheries, wild trout, and the craft of fly fishing. In July 2024, the magazine underwent a beautiful redesign and relaunch—and it's better than ever in both print and digital formats. To mark their one-year relaunch anniversary, *California Fly Fisher* is offering club members an exclusive subscription discount—plus 10% off all merchandise.

Special Anniversary Rates for Fly Club Members:

- \$39.95 – One year print + digital
- \$20.00 – One year digital-only

Use promo code FLYCLUBANNIV at checkout.

CALIFORNIA BOATER CARD

An important reminder to all FFD boaters!

If you do not have a California Boater Card you are **not in compliance with California Law.**

The California Boater Card shows that its holder has successfully taken and passed a NASBLA (National Association of State Boating Law Administrators) state-approved boater safety education examination. The California Boater Card program was phased-in by age for operators of motorized boats on state waterways.

As of January 1, 2025, all persons who operate on California waters were required to have one. The lifetime card fee is \$10. The lost card replacement fee is \$5.

The card is issued by the California State Parks Division of Boating and Waterways (DBW). Once DBW has received your application, proof of education and payment, and after taking an approved course and successfully passing the test, you will receive a 90-day temporary boater card by email. You should receive your official boater card by mail within 30 days from the time the application was approved.

Not only is mandatory education the law, the California Boater Card Program promotes boating safety on our waterways. U. S. Coast Guard accident data show that states with some form of boating safety education have fewer accidents and fatalities than states without any boater education requirements. For more information, or to apply for the card, please visit <https://californiaboatercard.com/>

FLY FISHERS | NORTHERN CALIFORNIA
INTERNATIONAL | COUNCIL

[Home - Northern California Council, Fly Fishers International \(NCCFFI\)](#)

MEETING SCHEDULE

The meeting schedule has been tentatively set for the next few months. Peter Hawes is the program chair. Let him know if you like the program speakers, or, if you have ideas for one, please let us know at the next meeting. You can email him at programs@flyfishersofdavis.org.

Fly Fishers of Davis 2026 Meeting Schedule			
MONTH	SPEAKER	DATE	TOPIC
April	Don Childress	April 28	Fly Fishing the World
May	Exhibition of Fly-Tying Art	May 26	Swap meet
June	Annual Picnic	June 30	Addled Angler Award Presentation

IT'S TIME TO RENEW YOUR MEMBERSHIP

IMPORTANT MEMBERSHIP RENEWAL DETAILS

Website Members: If you signed up for membership on the new FFD website, you will get an email in the late December/early January timeframe with your renewal details. No need to go to the website before that, so please wait for your renewal information email.

Website Non-members: If you're an FFD member, but you did not sign up on the website and you wish to renew your Membership, please stop by the membership table at our next in-person general meeting, and pay your dues with check, cash, or credit card. You can also send a renewal check to Fly Fishers of Davis, P.O. Box 525, Davis, CA, 95617.

Note: Our preferred method is for website non-members to become website members, by signing up on the website!

Dues for individuals and family memberships are \$35/year, and a student membership is \$10/year. Your dues help to fund many club activities — including our superb array of guest speakers, outings, the annual picnic, fly-casting and fly-tying clinics, our amazing FFD 101 classes, Salmon in the Classroom, and best of all, our contributions to numerous outreach, education, and conservation organizations. Thank you for your generosity and support!

BOARD OF DIRECTORS MEETINGS

Your FFD Board of Directors (BOD) meets once per month on the second Tuesday of each month (effective February 2026) to discuss many aspects of the club, including charitable contributions, conservation, budget planning, and the Annual Picnic and Annual Dinner. If you'd like to attend a board meeting, bring up an issue or send a message, the BOD meets in Davis, and welcomes your feedback! Since meeting places may change, please contact a board member or club officer for time and place details if you would like to attend.

OUTINGS & EVENTS - FFD 2026

PROPOSED FFD OUTINGS & EVENTS

Trips & Events 2026	Species & Info	Dates	Contact	Notes
Baum Lake	Trout	May 7-10	Bob Beverlin	There was a signup sheet for April but it's in May
Hat Creek 101	Trout	May 15,16,17	Dana Hooper	Camping. Pending area is back open after construction.
Casting Clinic	Jeff Hogan Instructor	May 17	Jeff Hogan	Northstar Park
Sacramento/Feather River Shad	Shad	May	Peter Hawes	Boater pair w/non-boater
North Umpqua River #1	Smallmouth/Shad	May 26-27-28	Ron Rabun	Estimated trip cost ~ \$1,100
Annual Picnic	Fun, Food, Friendship	June 30		
Bassin' on The Delta	Bass	June 2026	Dana Hooper	Boater pair w/non-boater
Fuller Lake	Trout	June 2026	Shawn DeArmond	Day Trip
North Umpqua River #2	Smallmouth	Grp 1 Aug17-19 Grp 2 Aug 19-21	Ron Rabun	Estimated trip cost ~ \$1,100

The Fly Fishers of Davis

**P. O. Box 525 • Davis, California, 95617-0525
 Copyright © Fly Fishers of Davis • All Rights Reserved**

The Fly Fishers of Davis (FFD) is a non-Profit 501.C.4 charitable organization dedicated to the education, participation, conservation and enhancement of fly fishing. FFD meets monthly. Our regular meetings are held the last Tuesday of each month except for December, and other exceptions are noted in our newsletter. FFD meetings and membership are open to the public. The Fly Fishers of Davis provide equal opportunity membership without discrimination on sex, race, origin, age or religious orientation.

E-Newsletter Policy

Each month, the e-newsletter will be posted to our website and emailed prior to the meeting. To view our PDF newsletter, download Acrobat reader at: <https://get.adobe.com/reader/>. Members are urged to maintain their current email address and other important personal data by logging in and visiting: <https://flyfishersofdavis.org/account/>. This ensures accurate communication and notification of our monthly newsletter, which is also downloadable at: <https://flyfishersofdavis.org/media/newsletters/>.

How to become a member of the Fly Fishers of Davis

FFD collects annual dues for individual memberships (\$35), student memberships (\$10) and family memberships (\$35). Family membership may include a spouse and children living with named member up to maximum age of 25. All family members will share one membership and username. Please provide a valid email address. For insurance reasons, you must be a current club member or registered family member to attend any of our fishing outings. For more information or if you have questions, please email membership@flyfishersofdavis.org

- Membership benefits: go to <https://flyfishersofdavis.org/about/membership-benefits/>
- New members ONLY: to join, go to <https://flyfishersofdavis.org/memberships/>
- Existing members, login and dues assistance: email webmaster@flyfishersofdavis.org

Important: The views and opinions expressed in this newsletter’s articles are those of the respective authors only, and do not necessarily reflect the views or positions of the Fly Fishers of Davis Board of Directors, or the club’s general membership.

Newsletter Submissions: To send articles and photos etc. to be included in the newsletter, email all materials to newsletter@flyfishersofdavis.org. Please put *FFD The Fisherman’s Line* in the subject line. Deadline for materials is the 15th of each month. Not all submissions will be published.
